Summary

Passionate and skilled full-stack programmer with a year of hands-on experience, actively seeking an entry-level programmer position

Work Experience

YesStyle.com   **05/2022 - 08/2023**

Analyst Programmer

- Improved and maintained E-commerce applications like Yesstyle.com, AsianBeautyWholeSale.com, and YesAsia.com
- Collaborated with Business Analysts (BA) and Project Management (PM) teams, ensuring effective project management, development, and delivery using Agile methodology
- Enhanced Yesstyle.com's efficiency by 10% through a comprehensive project structure shift from Apache Wicket to NextJS
- Simplified tax editorial display logic, significantly increasing efficiency when incorporating new countries
- Assisted the team by taking on both ad-hoc and routine tasks

Skills

Programming Language: Java, JavaScript, TypeScript, SQL

Frontend: React, jQuery, NextJS, NodeJS, HTML5, CSS, Bootstrap, Flutter, Apache Wicket

Backend: Java Spring, Hibernate ORM, AWS, Express
